

## EXPERIENCE

---

### VMware

Senior Solutions Architect

Remote, United Kingdom

November 2021 - present

- Worked directly with customers to deploy *Tanzu Kubernetes Grid (TKG)* on-prem or in the public cloud
- Helped customers bootstrap and build teams with a focus on platform automation & modern practices
- Focused on use of transformative technologies, such as Kubernetes, Terraform, & Ansible
- **Kubernetes, Bash, Python, Terraform, Golang, Pair Programming, TDD**

### VMware

Staff Software Engineer

Palo Alto, CA, United States

December 2019 - November 2021

- Key member of *Tanzu Kubernetes Grid (TKG)*; a managed service for enterprise-grade Kubernetes clusters
- Ensure timely release of Kubernetes updates as part of the Release Engineering team
- Responsible for building the latest version of Kubernetes for inclusion in other products
- Selected to work on national-scale mobile app over Summer 2020, aiding national COVID-19 effort
- **Golang, Kubernetes, Bash, Python, Elasticsearch, Pair Programming, TDD**

### Pivotal

Staff Software Engineer

Palo Alto, CA, United States

July 2019 - December 2019

- Key member of *Pivotal Container Service (PKS)*; a managed service for enterprise-grade Kubernetes clusters
- Responsible for including latest version of Kubernetes in product across all supported release lines
- Triaged failures and worked with component teams to identify and implement fixes
- Maintained end-to-end and integration tests to verify the newest versions of Kubernetes could be installed
- **Golang, Kubernetes, Bash, Python, Ruby, Pair Programming, TDD**

### iD Tech Camps

Senior Software Engineer

San Jose, CA, United States

September 2015 - July 2019

- Maintained bespoke CRM & e-Commerce platform by troubleshooting and fixing issues with legacy systems
- Built AngularJS application and C# .NET server-side API for purchase flow and customer 'My Account'
- Drove development of new deployment practices and use of CI with goal of greater efficiency
- Moved deployment process to Docker and infrastructure from on-premises to AWS
- **C# .NET, ASP .NET, MS-SQL, AWS, Docker, TDD**

Camp Director & Instructor, Princeton University (Seasonal, Summer-only)

June to August 2009 - 2015

- Taught students aged 11-17; Java, Objective-C, Game Design, Robotics & other STEM topics
- Responsible for entire camp of 130 students, ensuring student safety and well-being
